To Whom It May Concern:

It's my pleasure to recommend Dr. Shannon Subramaniam of Concierge Chiropractic and Cornerstone Coaching, as a Chiropractor and Coach. Dr. Shannon has not only provided me with wonderful chiropractic care, but over her decades of experience, she has also become a trusted voice in natural health and total body wellness from the inside, out.

Being a Broadway performer puts many demands on my body. With the repetitive physical stresses from a demanding schedule of rehearsals and performances, I have found her care to be very beneficial. Plus, her new concept of bringing care directly to the workplace, offers convenience and cost-effectiveness that I truly appreciate.

I recommend her care to everyone, especially those who feel as though they don't have time to take care of themselves. Dr. Shannon provides a healing touch that is unlike any other chiropractic care I have received in the past, and always puts the needs of the patient first, offering effective care inside and out.

Sincerely,

Larry Lelli  
Broadway Drummer & Conductor

Re: Letter of Recommendation for Dr. Shannon Subramaniam

It is my pleasure to provide my insights into qualities and qualifications that make Dr. Shannon such a valued business associate, leader, and clinician. I have known Dr. Shannon for almost 4 years, and had the pleasure of being in the role of her direct Administration supervisor for the past 2 ½ years.

Dr. Shannon has been providing Chiropractic care to the patients, caregivers, and stakeholders (employees) of Cancer Treatment Centers of America (CTCA) for the last 4 years and has extended her influence far beyond the clinic venue. She has conducted a series of personal development sessions for our stakeholders as part of her H.E.A.L. program that were so well attended there was “standing room only” in our conference rooms. As a member of the Chiropractic Team at our facility, she assumed a leadership role in bringing new modalities that would benefit our patients to my attention. Most importantly, it is best for me to frame my description of Dr. Shannon in terms of how she embraced the CTCA Mother Standard® of care, which is to treat every patient, caregiver, and fellow stakeholder in a way that you would expect your mother to be treated. I have numerous testimonials where Dr. Shannon demonstrated our Mother Standard.

In my 30 year executive leadership career I have had the pleasure of being associated with many high caliber individuals. I count Dr. Shannon among the tops due to her high energy level, her deep sense of compassion, her drive to better the lives of everyone she encounters in some way, and her unbelievable strong spirit.

I consider Dr. Shannon a “Person of Influence” and I am confident you will be enriched by being associated with her.

Please feel free to contact me directly if you require any additional information.
